

User Workshop DustClim: Development of dust climate services for solar energy
11 May 2021, Virtual event

Workshop on solar energy applications, organised by inDust COST Action

14:00-14:10	S. Basart S. Kazadzis	InDust Cost action and solar energy applications
14:10-14:30	A. Votsis	DustClim: Development of solar dust services for solar energy
14:30-14:50	N. Hanrieder	Water saving in solar plants with the help of soiling forecasts
14:50-15:10	P. Kosmopoulos	NextSENSE: solar energy nowcasting & short-term forecasting system
15:10-15:30	P. Blanc	High photovoltaic penetration at urban scale
15:30-15:50	I. Fountoulakis	Excelsior: Solar energy estimation in Cyprus
15:50-16:10	E. Wey	CAMS Radiation Service use cases for solar energy and beyond
16:10-16:25	D. Oyarzun	Dust products for solar power industry in northern Chile
16:25-16:30		Closing
